**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows to update the priority data:

In the specification, on page 1, line 2, after "09/535,741, filed on March 27, 2000" insert

-- ,now U.S. Patent No. 6,334,671 --

***Allowable Subject Matter***

Claims 16-23, 25-34 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest a method for manufacturing an ink jet recording head comprising:

forming a pressure generating chamber from a chamber plate with a pair of sides such that said pair of sides comprises a plurality of arcuate portions; and

forming an ink supply plate on a side of said chamber plate, said ink supply plate comprising an ink outlet passage comprising an upper passageway and a lower passageway which is displaced in a downstream direction from said upper passageway, as in the context of claim 16.

The closest prior art, Pidwerbecki, discloses to form an ink supply plate with displaced passageways, however that chamber plate does not have a plurality of arcuate portions. The nozzle plate does have arcuate portions, but the chamber plate does not have arcuate portions.

Art Unit: 1765

---

There is no motivation to provide the plurality of arcuate portions in the method of Pidwerbecki, as in the context of claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
